Take a closer look

The state-of-the-art diagnostic imaging services you need are closer than you realize

As one of the region's leading healthcare providers, it should come as no surprise that we are also home to one of the most convenient, high-quality diagnostic imaging facilities in the Pioneer Valley.

HCPA's Diagnostic Imaging and Medical Center provides physicians with access to a complete array of services. By utilizing the latest in digital imaging, including PACS technology, our facility decreases the turnaround time, delivering exam results quickly.

Inside is Advanced Support

You can feel confident that our team of experienced professionals will provide you with the high level of quality, efficiency, and thoroughness you'd expect of every HCPA office.

Our radiologists and clinical team work with your physician to provide the most appropriate imaging studies, selecting the best procedure based on clinical diagnosis and providing the service in a comfortable, caring setting. Additionally, our radiologists are available to interpret and provide results quickly.

Inside is Advanced Technology

Our comprehensive suite of imaging technology—located in a single, convenient facility—accelerates and enhances the examination process.

Computerized Tomography (C.T.) Scans:

- High-quality scans, completed quickly
- Radiologist works with physician to determine best procedure based on clinical diagnosis

Dual-energy X-ray Absorptiometry (DEXA) Bone Density Exams:

- Variety of fast, comprehensive exams
- Rheumatologist interprets results

Ultrasound Exams:

- Full scanning capabilities, including vascular imaging
- Technologist provides patient with directions in preparation for exam

General Radiography (X-ray) Exams:

- High-quality, full-service capabilities
- Radiography room accommodates patients with physical disabilities (retracting x-ray table, upright orthopedic/chiropractic capabilities)
